International Co-operation & Human Rights Department

Mr. RUPERT SKILBECK
Director ,REDRESS
Date:23/6/2020

In the response to the letter received on dated 1 June 2020 to the Attorney General mr.Tajelsir El Hibir.kindly be advised that in response thereof we make flowing comments:-

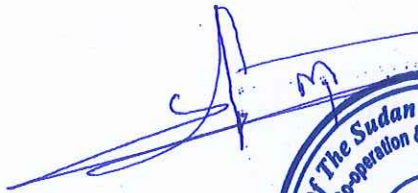

- Omer Hassan Ahmed albasheer, known as omar Basheer and known as omar Bashir is now in jail pending Trial.
- We take note of the fact that there's an international warrant of arrest Against him issued by the (ICC).
- Now basheer is in Kober prison under high security measures . we are taken care of the medical measures required for the detained in prison according to the international standards procedures. and according to the international norms.
- It is to be noted that (W H O) and the country office visited the Aria and quiet satisfied that the place where he kept in custody is in compliance with the international standards.
- Yes some of the Families of the detainees protested before the kober prison as king for the Release , and asking that they have to be move to house custody by reason of spreading of corona virus of covid 19.

- **our position is quite simple that:-**

Firstly :- the charges are not available the defendant is to be in jail up till court.

Secondly :- it's not available to keep him in custody at home because we can not provide high security for him to stay in his house.

- So the best place is the prison where all persons pending trial are kept there .
- Thank you very much for your comments and be assured that we will act in accordance with the international standards, keep the defendant in custody up till such time that the decision is to be taken concerning the ICC and he will be under high security measures control.
- All facilities provided to the defendant at the pretrial stage including the medical services as well (H S E)and keeping him in covid 19 free area will be taken care of.

First Prosecutor / Seeneen Isaa Hamid
Deputy Head of Department
of International cooperation & Human Rights
